

2 ECTS

Financial tools to support estuaries restoration and conservation projects

Identifying the sources of funding associated with conservation and restoration for adaptation in coastal areas.

COURSE PROGRAMME

Financial tools to support estuaries restoration and conservation projects

MULTIMEDIA CONTENTS | DELIVERED IN ENGLISH

- UNIT 1** ● *Strategies to climate change adaptation through conservation*
- UNIT 2** ● *Economic value of ecosystem services*
- UNIT 3** ● *Incentivizing, financing and governing Nature-based Solutions*
- UNIT 4** ● *Types of financial services: Insurances*

More courses on Adaptation pathways to Climate change through management and restoration fo estuarine ecosystems

MOOC 1

Climate change services provided by estuaries and estuarine ecosystems and quantification tools

MOOC 2

Climate change risk in coastal areas and estuarine-based adaptation strategies

MOOC 3

Financial tools to support estuarines restoration and conservation projects

IHCantabria - Environmental Hydraulics Institute, Universidad de Cantabria

Programme Coordinators: Prof. José A. Juanes | juanesj@unican.es

Dra. María Recio | reciom@unican.es

Course Director: Dr. María Recio | reciom@unican.es

Course originally developed within the LIFE ADAPTA BLUES project (LIFE18 CCA/ES/001160; "Adaptation to climate change through management and restoration of European estuarine ecosystems")
